

SKETCH

A technical sketch of a mechanical component, likely a housing or bracket, shown in a perspective view. The component has a rectangular base with rounded corners and a raised section on the left side. Three callouts are present: '1.1' points to a circular feature on the top surface of the raised section; '1.2' points to a circular feature on the top surface of the main body; and '2' points to a circular feature on the bottom surface of the main body. A dashed orange box labeled '2LSR' is located on the top surface of the main body, near the base of the raised section.
